TGI FRIDAYS STATEMENT REGARDING HURRICANE FLORENCE

11:00 a.m. U.S. Central Time

DALLAS, TX – TGI Fridays, along with our franchise partners and field teams, is actively monitoring the path of Hurricane Florence. At present, we estimate that more than 40 Fridays restaurants may experience the greatest storm impact, and we are focusing much of our preparation efforts on them. In total, nearly 150 Fridays restaurants (some 30% of our U.S. base) may be impacted by storm-related weather. Guest and team member safety are of the utmost importance to us and our franchise partners at this time, and restaurants will re-open as it is determined that they are both safe and operable for teams and Guests.

The following Fridays restaurants are currently closed of yesterday, September 12:

- North Myrtle Beach, SC
- Myrtle Beach, SC
- Murrells Inlet, SC
- Mt. Pleasant, SC

Please direct all media inquiries to media@fridays.com, and we will do our best to respond in a timely manner.
